

# Are we Prepared for Post-spill Monitoring?

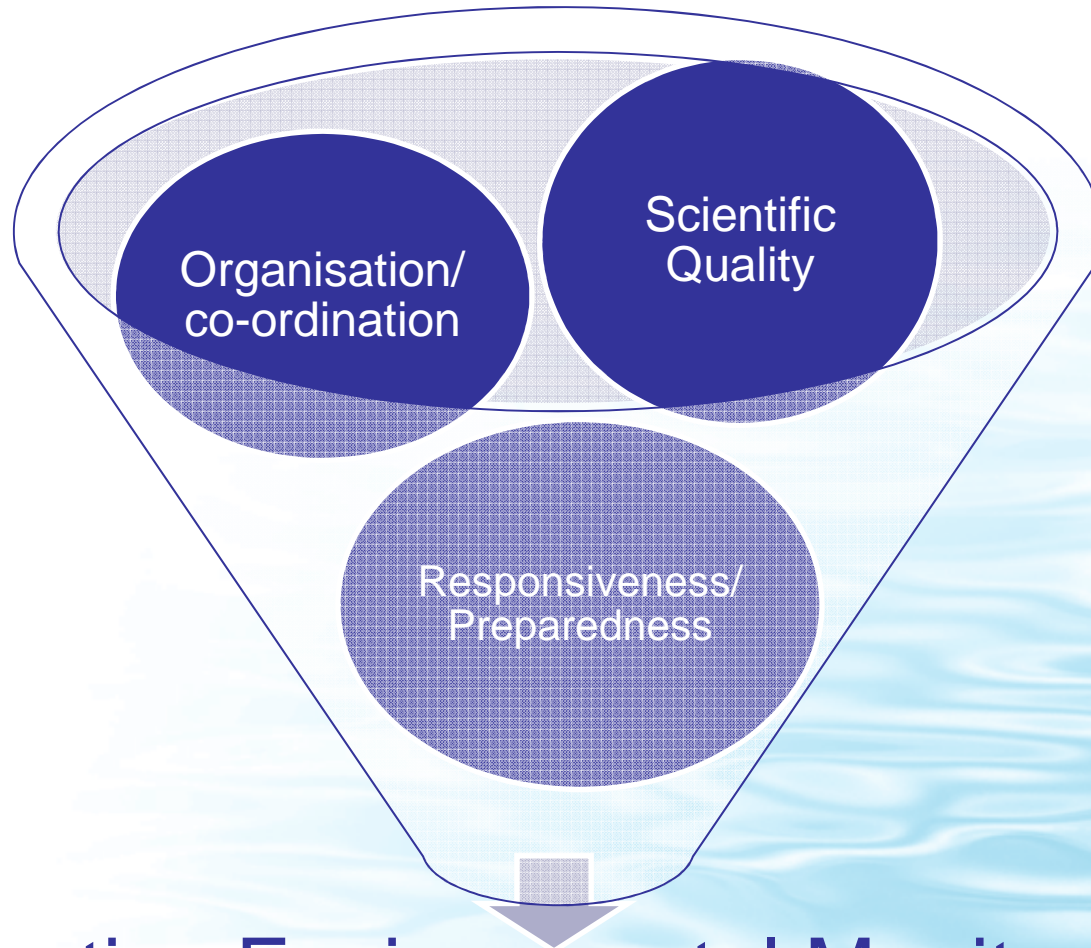

Interspill 2015, Mark Kirby, Cefas, UK

# Why Do Post Incident Monitoring?

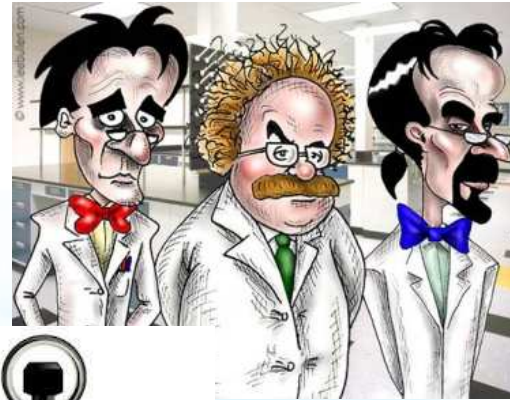

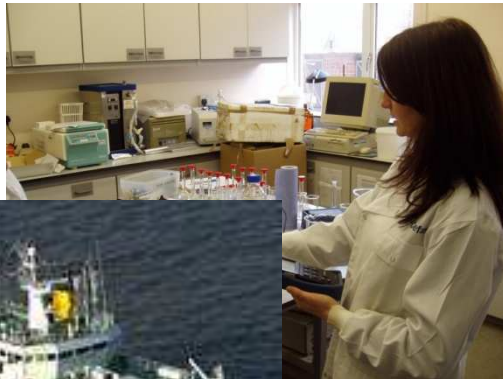

- **Human health and safety.**
- **Understanding what the impact to the environment is (including the long-term!).**
- **Understand impact on commercial resources.**
- **Input to compensation issues.**
- **Effectiveness of response and clean up.**
- **Learn for the future.**

# The Ingredients

Effective Environmental Monitoring

# premium

[www.cefas.defra.gov.uk/premium](http://www.cefas.defra.gov.uk/premium)

Cefas

- What will be done?
- How will it be done?
- Who will do it?
- Who will organise it?
- Who will pay for it?
- Does everyone agree?
- How do we know it is the right thing to do and is of the right quality?

# The 8 Principles of Effective Monitoring Programmes

**Think about a potential incident  
YOU could be involved in?**

**Are you confident post spill  
monitoring and impact  
assessment could be done  
effectively?**
