

# SAVE THE DATE

## MANIFESTS FINAL MEETING

23 March, 2023  
Workshop venue  
Avenue Galilée, 5/2,  
1210 Brussels, Belgium

**Project achievements on the MANIFESTS Decision-Support System** (online HNS database, fire & explosion risks modules, modelling of HNS behaviour, risks for population: guidance on sheltering or evacuation, MANIFESTS serious game ...) **will be showcased during a dedicated workshop that will allow testing the tools developed**, bringing together project partners, member of the MANIFESTS Advisory Board and National maritime authorities involved in pollution response. **Round table discussions will conclude the workshop with key messages and recommendations** to better anticipate the risks for responders and population in the event of an accidental release of gaseous and volatile substances at sea.
